About Us

May's Group was established in 2017 by Mustafa Tawfiq and serves as the mother company for three subsidiaries: Property Maintenance, Construction, and Renovations. As a Canadian family-owned business, we prioritize quality, affordability and customer service across all our operations. We leverage the expertise gained from each company to enhance the overall efficiency and performance of the entire group.

Founder & Managing Director **MUSTAFA TAWFIQ**

Mustafa Tawfiq, the founder and managing director of May's Group, brings a unique perspective to the business. Having come from an aviation background. He applies the principles he learned in pilot training to ensure fast emergency management and response, as well as efficiency in all aspects of the business.

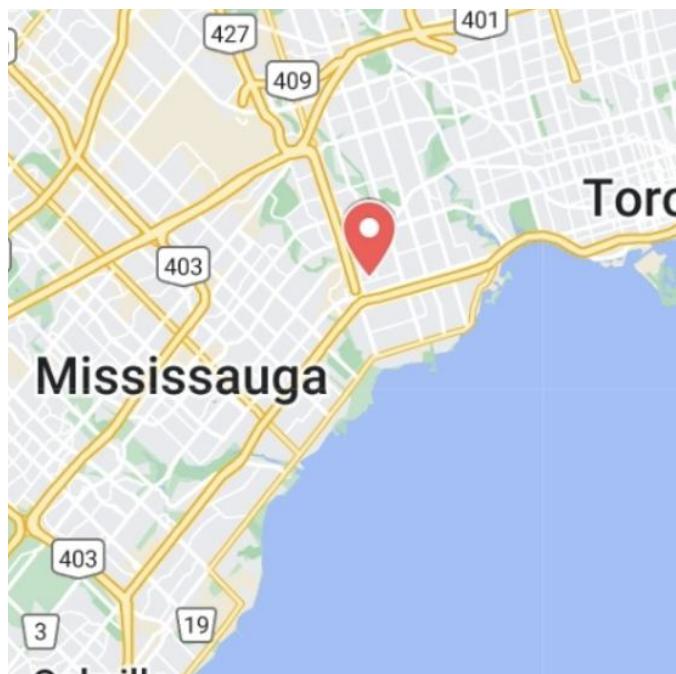

This perspective has been instrumental in shaping the company's approach to operations and customer service. Mustafa oversees all operations and is hands-on involved in every project, ensuring that the company maintains its commitment to quality and customer satisfaction.

Our Commitment to Customer Service

At May's Group, we are committed to providing the highest level of customer service. We believe that every interaction with our clients is an opportunity to exceed their expectations. From the initial consultation to the completion of the project, we strive to ensure that our clients are completely satisfied with our work.

Our Headquarters

Our headquarters are located at 31 Medulla Avenue in Etobicoke, boasting 4000 square feet of office space. Our maintenance center ensures on-time maintenance and our insurance equipment is always reliable, ready to tackle any weather conditions or emergencies. All our equipment and vehicles are from 2018 onwards, ensuring modern, efficient operations.

Commitment to Safety and the Environment

At May's Group, safety is paramount. We have a comprehensive safety reporting system in place and provide regular training for our staff to ensure they deliver the best service in the safest manner possible. Additionally, we are dedicated to environmental sustainability. All our equipment is regularly serviced, and we have environmental protection devices installed on them. We also make a concerted effort to sort and recycle 98% of our waste.

Our Portfolio

May's Group of companies has successfully completed a range of major projects, showcasing our expertise and commitment to excellence. These projects include the completion of 300 bus stops for the Region of Durham, the construction of Mainways Equestrian Wood Fence for the Town of Whitby, and the construction of two major parks: Fork of Thames in London and Peter Misersky Park in Guelph. Additionally, we have completed the construction of a medical lab from the ground up for Kenota Health and provided groundskeeping services for over 30 commercial and industrial properties. These projects demonstrate our ability to deliver high-quality work across diverse sectors, solidifying our reputation for excellence in the industry.

01

Property Maintenance

Established in 2016, the property maintenance division is the first division of May's Group, offering comprehensive 4-season property maintenance and groundskeeping services. We tailor custom plans to fit your budget while maximising your property's value. Our services include precise record-keeping with GPS and live camera tracking on all vehicles.

Pictures are taken for every service visit, including walkways, driveways, and lawns, which are instantly uploaded to a cloud organized by date. This allows you to have access to detailed records 24/7, ensuring transparency and accountability. With insurance coverage of up to \$5 million, and a 24/7 emergency line, we are your reliable, one-stop solution for property maintenance needs.

Renovations

Our success in property maintenance and construction inspired us to launch a renovation division in 2019. Our meticulous attention to detail has been key to our success in this new venture. We pride ourselves on not overlooking any small detail, ensuring that every aspect of our renovations is of the highest quality.

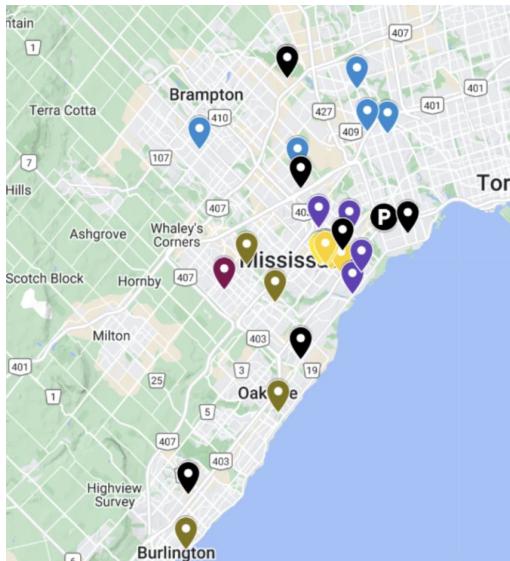

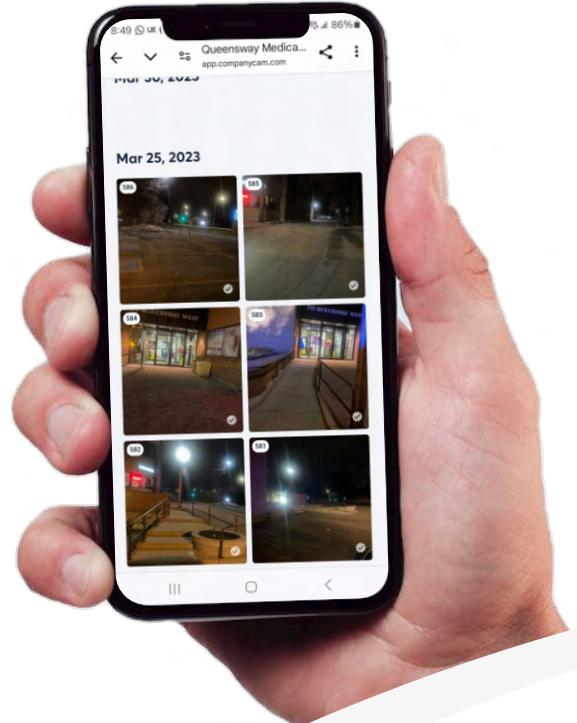

Our portfolio includes the renovation of halls in over 4 buildings and the completion of a medical lab construction project. This lab features advanced facilities such as a positive pressure facility, static-free ground, clean room, and dark room, showcasing our capability to deliver complex and specialised renovation projects.
